- a. Direct ("DIR"). Debtor will make direct payments under the terms of the original agreement between Debtor and the creditor on amounts due from the petition date forward. Trustee will pay the allowed pre-petition arrearage in full pursuant to §1322(b)(5), with interest as set forth above.
- b. Direct by other than Debtor ("DOD"). Debtor incurred the debt for the benefit of another, who is making and will continue to make payments. Debtor will not make payments on or related to this debt post-petition. If the obligation is in default, Debtor will not oppose relief from the stay with respect to the collateral. The debt will not be discharged.
- c. Pay in full ("PIF") (including "910 car" claims). Trustee will pay in full the allowed secured claim at the interest rate set forth above. If proposed above, creditor will also receive pre-confirmation adequate protection payments as provided in 3.4.
- d. Bifurcate under §506 ("BIF"). Unless the creditor, Debtor and Trustee stipulate to value or the Court orders otherwise, creditor's collateral will be valued at the amount set forth above. The total claim amount listed on the proof of claim controls over any contrary amount listed above, unless the Court orders otherwise. Trustee will pay the allowed secured claim in the amount of the value of the collateral with interest at the rate set forth above. The balance of creditor's allowed claim will be treated as an allowed nonpriority unsecured claim. If proposed above, the creditor will also receive adequate protection payments as provided in 3.4. If creditor does not file a timely objection, the proposed collateral value will be binding on the creditor upon confirmation of the plan. If creditor timely objects, the confirmation hearing will include a valuation hearing under §506 and Rule 3012. This sub-paragraph will be effective only if "Yes" is checked in 1.1.b. Valuation requires service in accordance with Rule 7004.
- e. Strip wholly unsecured mortgage ("STR"). Debtor seeks to value real property and avoid a mortgage wholly unsecured by the value of that property. Unless creditor, Debtor, and Trustee stipulate to value, or the Court orders otherwise, the property identified below will be valued at the amount set forth below. If creditor does not file a timely objection, the value will be binding on creditor upon confirmation of the plan, and the mortgage will be avoided in its entirety upon discharge. If creditor timely objects, the confirmation hearing will include a valuation hearing under § 506 and Rule 3012. This sub-paragraph will be effective only if "Yes" is checked in 1.1.b. Valuation and lien stripping require service in accordance with Rule 7004.

Avoid under §522(f) ("AV"). Debtor contends that the judicial lien or nonpossessory, nonpurchase money security interest identified below ("Lien or Interest") impairs an exemption to which the Debtor would have been entitled under § 522(b). Debtor seeks to avoid the Lien or Interest pursuant to § 522(f), to the extent of the impairment. Trustee will pay in full the amount, if any, of the Lien or Interest that is not avoided as an allowed secured claim, with interest as

set forth above. The amount of the Lien or Interest that is avoided will be treated as an allowed nonpriority unsecured claim. If the creditor does not file a timely objection, then the Lien or Interest will be avoided as set forth below upon entry of the order confirming this plan. If creditor timely objects, the confirmation hearing will include a lien avoidance hearing under § 522(f). This sub-paragraph will be effective only if "Yes" is checked 1.1.b. Lien avoidance requires service in accordance with Rule 7004.

- g. Surrender ("SUR"). Debtor will surrender Debtor's interest in the collateral. Upon confirmation, the automatic stay will be terminated as to the collateral and the creditor need not file a motion for relief from stay to repossess. foreclose upon, or sell the collateral. The co-debtor stay is not modified. Surrender shall not adversely affect Debtor's or co-debtor's non-bankruptcy rights.
  - h. Other ("OTH"). Treatment of the claim is set forth in Part 9.
- 3.2 Debt Secured by Principal Residence. If Debtor is surrendering the principal residence, 3.1.g. applies. Otherwise, a creditor may mail Debtor all correspondence, notices, statements, payment coupons, escrow notices, and default notices concerning any change to the monthly payment or interest rate without violating the automatic stay. Debtor will make post-petition payments directly to the creditor. Trustee will pay allowed prepetition arrearages, together with interest at the rate in 3.1, or as otherwise ordered by the Court.
- 3.3 Lien Retention. Secured creditors will retain their liens until full payment of their secured debts (determined under non-bankruptcy law) or upon discharge, whichever occurs first, at which time the liens will be extinguished; EXCEPT (i) creditors whose treatment is DIR or DOD will retain their liens in accordance with applicable non-bankruptcy law, and (ii) liens of a governmental unit will continue to attach to property excluded from the bankruptcy estate under § 541 until the liens are released in accordance with non-bankruptcy law.
- 3.4 Adequate Protection Payments. Trustee is authorized to make pre-confirmation adequate protection payments to creditors secured by a purchase money security interest in personal property, without a Court order. To receive the payments, Debtor or creditor must file a notice in the bankruptcy case certifying that: 1) this plan provides for adequate protection payments to the creditor; 2) the debt and collateral are listed on Schedule D; and 3) the creditor has timely filed a secured proof of claim that includes all required documentation. Unless the Court orders otherwise. the payments will be 1% of the claim of creditors whose claims will be paid in full (PIF), or 1% of the value of the collateral as stated above for those creditors whose claims will be bifurcated (BIF). Trustee will not be required to make adequate protection payments to any creditor whose allowed secured claim is less than \$2,000. Trustee will calculate the amount of the adequate protection and equal monthly payment disbursements to creditors using reasonable discretion. Once all conditions have been satisfied, Trustee will make monthly adequate protection payments until confirmation. Thereafter, Trustee will use reasonable discretion to amortize the remaining balance of the allowed claim to be paid over the remaining term of the plan. If the plan payments are insufficient to pay adequate protection. Trustee will make the payments pro rata. Trustee will apply adequate protection payments to the principal amount of the creditor's allowed secured claim.

### Part 4: Treatment of All Other Claims, Fees, and Expenses

4.1 Full Payment of Trustee's Fees, Administrative Expenses, and Priority Unsecured Claims.

Trustee will pay claims in full in each category before making any payment on claims in the next category. Distributions will be paid pro rata within each category, and will be sent to the creditor's payment address of record. Trustee will make distributions only to the extent of available funds, may exercise reasonable discretion in determining the timing and amount of distributions, and is not required to make distributions to any creditor less than the minimum specified in Rule 3010(b).

#### Part 8: **Vesting of Property of the Estate**

Property of the estate will vest in Debtor upon the entry of discharge, or upon dismissal or closing of the case without discharge. If the case is converted to another chapter, property of the estate will vest in accordance with applicable law.
